All State of Alaska UST regulations are available on line at:
http://www.dec.state.ak.us/spar/statutes_regs.htm#regs78

Arizona

Arizona adapted UST Technical Requirements, which became effective on July 30, 1996. We call the regulations the Arizona Administrative Code (AAC). You may find these rules at www.azsos.gov. Click on rules and regulations find the AAC then scroll down until you encounter Title 18, Chapter 12. The AAC may be downloaded from the above referenced website. The AAC closely follows the federal code from one requirement to the next. Look at UST temporary closure requirements as an example. In the federal code, UST temporary closure is found in 40 CFR280.70. In the AAC UST, temporary closure requirements are located at R18-12-270. For most of the requirements, the last two digits of the federal code are the same as the last two digits the AAC.
