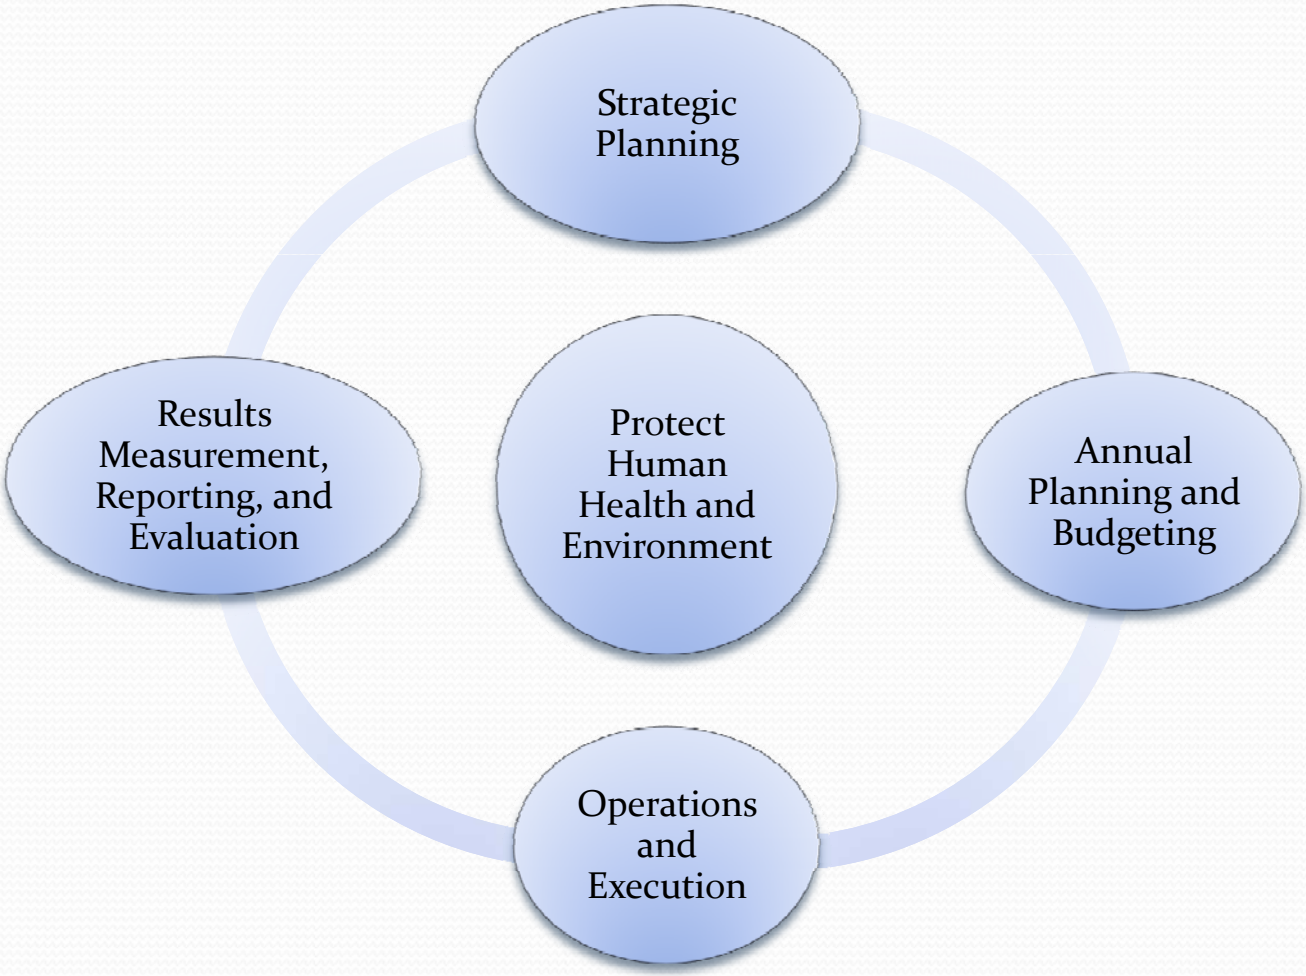
Data Search and Results

WHY COLLECT DATA?



RCRAInfo

DATA and EPA

- OECA (Office of Enforcement Compliance Assurance) uses RCRAInfo data to establish data metrics for analysis that Regions perform on state programs.
- The accomplishments of enforcement and compliance assurance programs are reported in a variety of documents. EPA integrates these accomplishments into their strategic plan and the program's Government Performance Results Act (GPRA) measures.

Access to Data in RCRAInfo

Regulatory Agency Access Only

- RCRAInfo - https://rcrainfo.epa.gov/
  - National/Implementer Reports
  - BARRT (Basic RCRAInfo Reporting Tool)
- RCRARep - http://www.epa.gov/rcrarep/

Public Access

- Envirofacts (multisystem search) - http://www.epa.gov/enviro/facts/rcrainfo/search.html

Public and Regulatory Agency Access

- ECHO (Enforcement & Compliance History Online), now… ECHO Gov - http://echo.epa.gov/

National/Implementer Reports Index

1. Biennial Report Data Quality
2. Corrective Action

Corrective Action

Basic RCRAInfo Reporting Tool (BARRT)

- BARRT is an exclusive Build-A-Query interface providing users the capability to create and save their own queries to pull data from RCRAInfo.
- You can also used pre-built queries that other users have created and shared.
- Queries are in Oracle SQL (Structured Query Language).
- Queries returning 5,000 or more records require a conscious decision to execute. Less than 5,000 records will be executed without stopping.
- Be sure that you are familiar with rules governing the release and use of RCRAInfo data for internal data requests for your agency, as well as for responses to Freedom of Information Act requests.
- You can contact a National System Administrator , Idali Gotay (gotay.idali@epa.gov), at HQ to have your query checked for viability and minimize overload to RCRAInfo as a whole.

EPA United States Environmental Protection Agency

BARRT

RCRAInfo Help

It is highly recommended that prior to using the BARRT tool you become familiar with how BARRT works. Please click on the RCRAInfo logo at the top right hand of the screen for the full explanation of what you can do with BARRT.

Instructions for using the Basic RCRAInfo Reporting Tool

To use RCRAInfo's exclusive Build-A-Query technology, please select the views that you wish to use in building your custom query. A short description of each view appears to the right of the selections. You may also select the type of output you wish to receive: screen display or text file. Click the Continue hyperlink when you are ready to choose columns from these views to include in your query.

You may also execute pre-built SQL queries or edit saved queries by clicking the My Queries hyperlink.

Only queries returning 5,000 or fewer results will be executed. Use alternative methods such as the Tool for Application Developers to extract queries returning more data.

Please be sure that you are familiar with rules governing the release and use of RCRAInfo data for internal data requests for your agency as well as for responses to Freedom of Information Act requests.

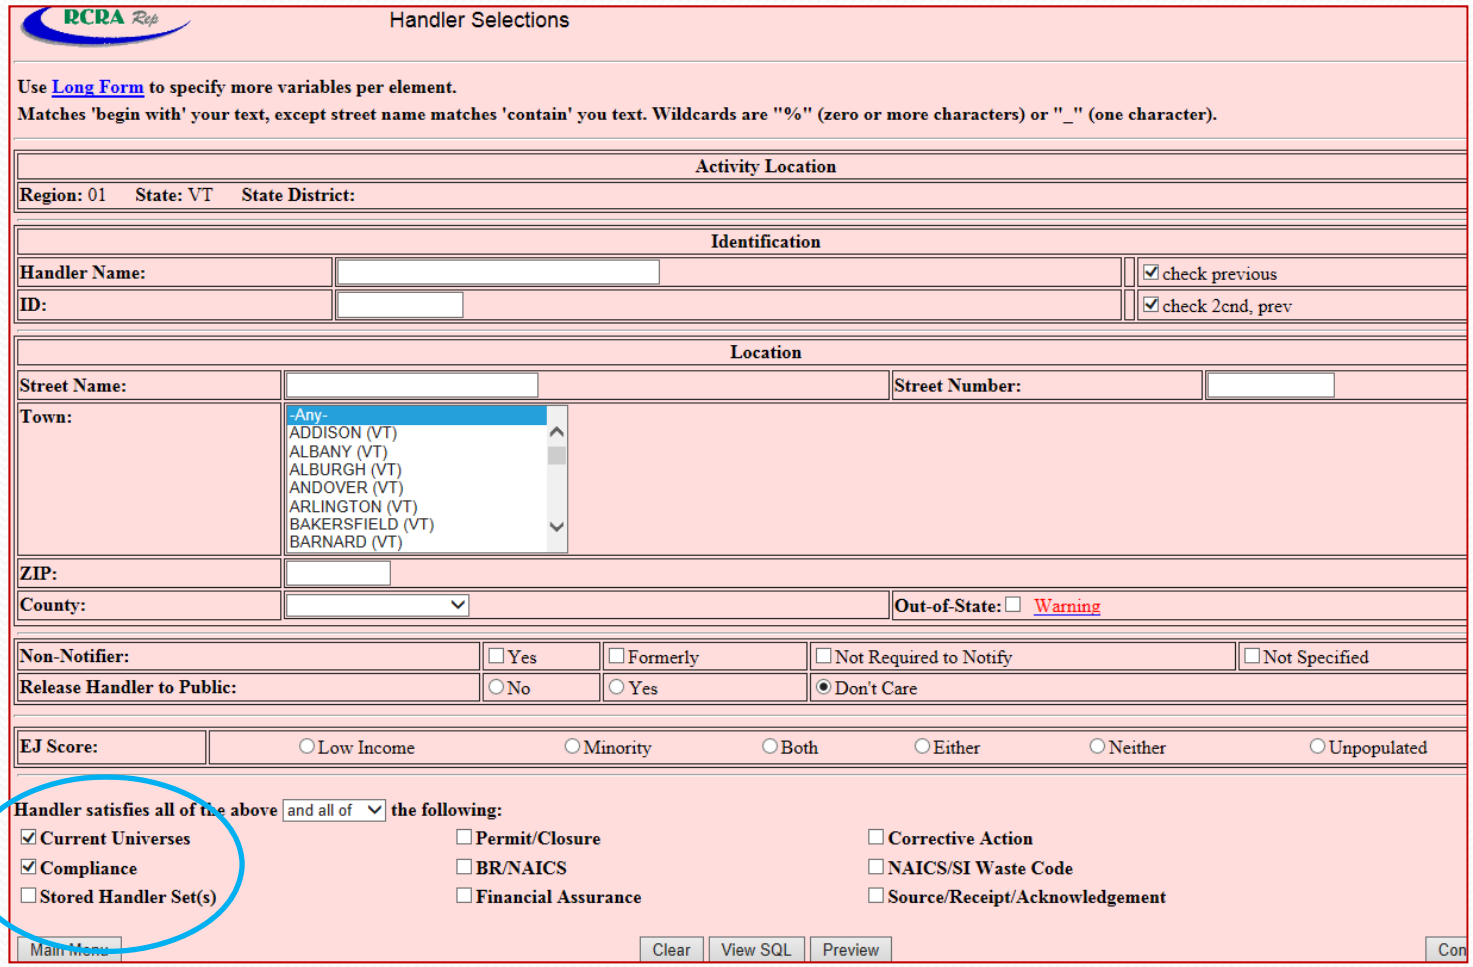
Examples of Reports

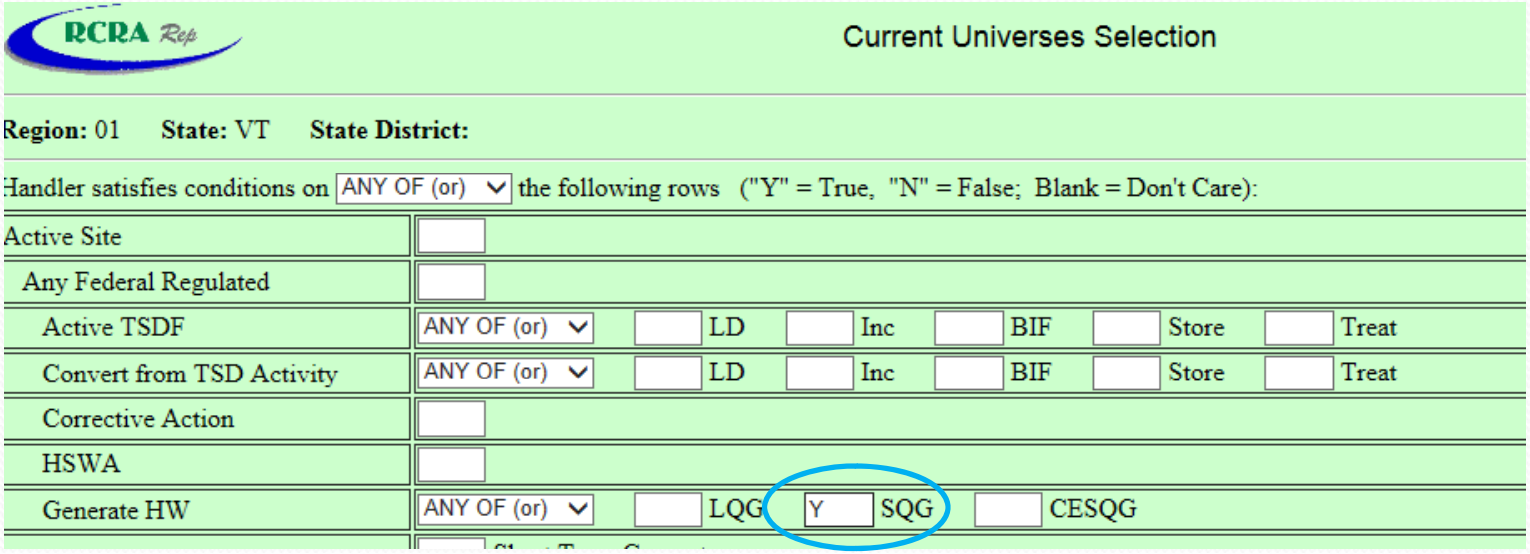
- Inspection Planning
  - SQGs never inspected; Date last inspected for LQGs;
- Inspection oversight and Annual Data Verification
  - Have all the inspections done last year (or last quarter) been entered into RCRAInfo and have enforcements been added and violations closed out (RTC'd) as appropriate
- History of evaluations at a site
- All Violations Not Returned to Compliance (RTC'd) for your state

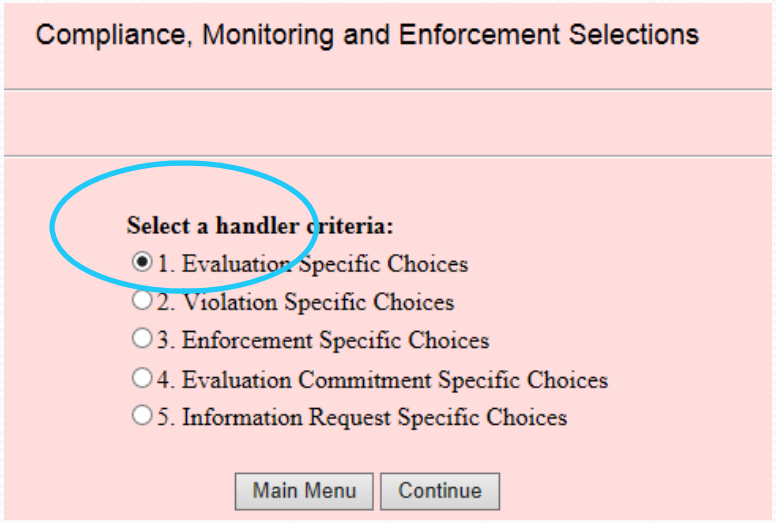
Find SQGs that have never been inspected

- Advanced Search> Comprehensive> Current Universes & Compliance>

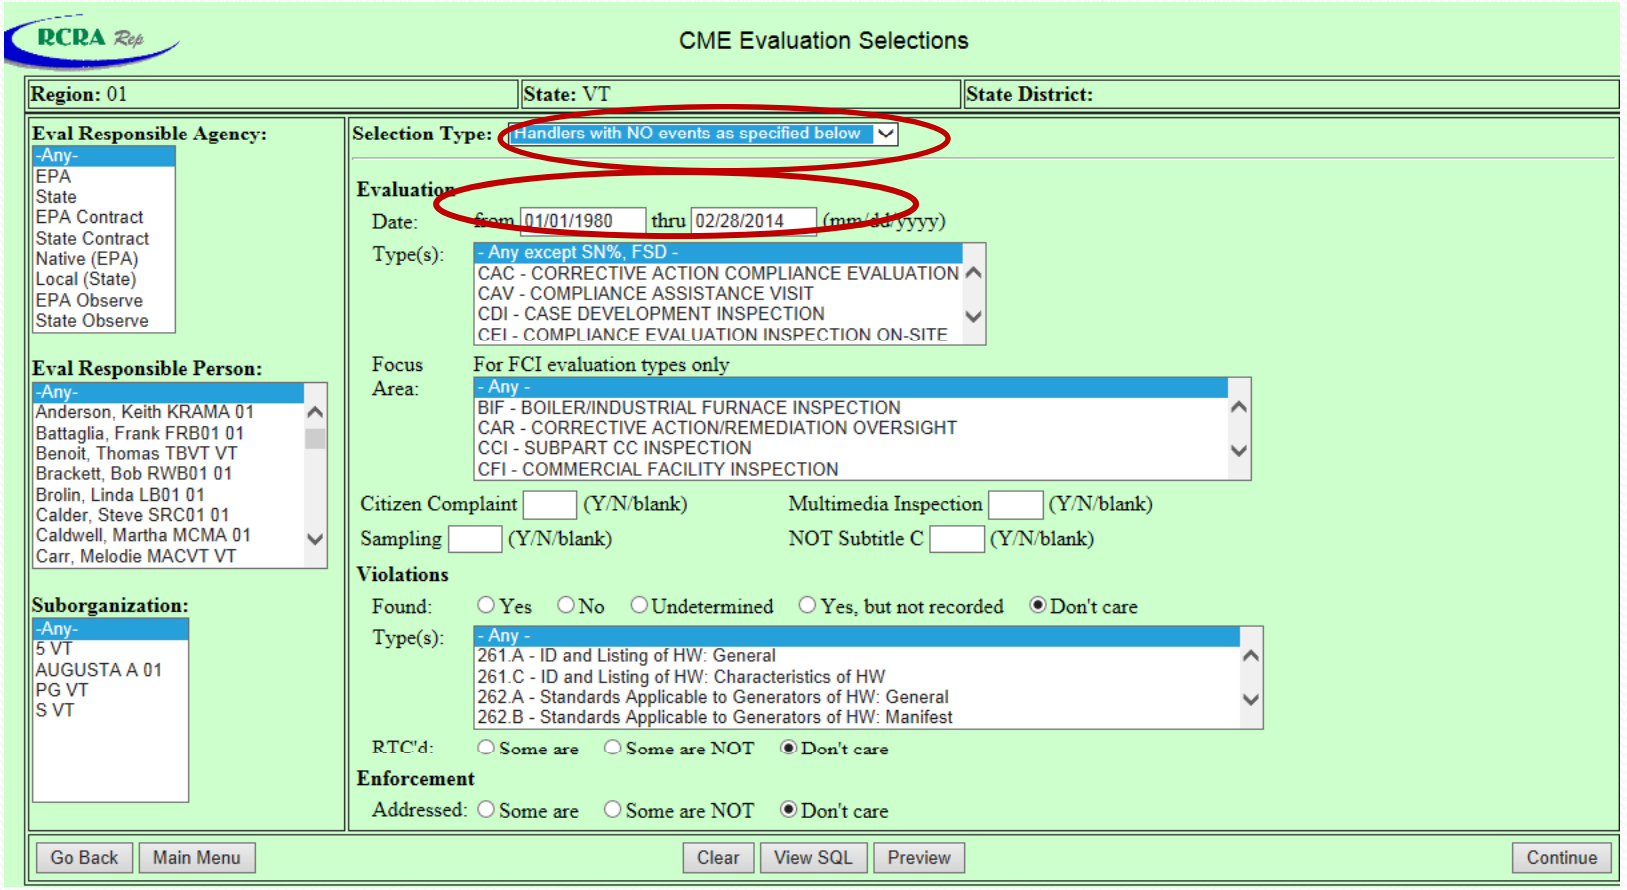


Find SQGs that have never been inspected (continued)





SQGs Never Inspected (continued)



Data Search and Results
Using new ECHO

By Doug Nevel

New ECHO public web site

- There is a new ECHO web site http://echo.epa.gov/
- Enforcement and Compliance History Online (ECHO)
- OTIS is retired. ECHO Gov replaces it.
- Useful for inspection targeting (currently has false negatives, i.e. missing sites)
- Updated from RCRAInfo once a week
- Combines air, water and RCRA compliance info
- Includes 5 years of inspection and enforcement info, but only 3 years of compliance/violation status.
- Maps sites, listing compliance status and number of years since last inspection

AALSMEER MOTEL & COTTAGES		7078 ST RTE 80	COOPERSTOWN	NY	110043636027	C	Yes	9	1	

Notes

- Currently only has a multimedia search, so no searching for only RCRA HW sites, until August 2014
- When searching by whether a site was inspected or not, ECHO counts Financial Record Review (FRR) and Non-financial Record Review (NRR) evaluation types, which are not on-site inspections.
- In the Detailed Facility Report, under Enforcement and Compliance, the state that inspected the site, the Activity Location state, is missing. This is because out of state inspections are common for transporters that operate in multiple states (and for manifest violations).

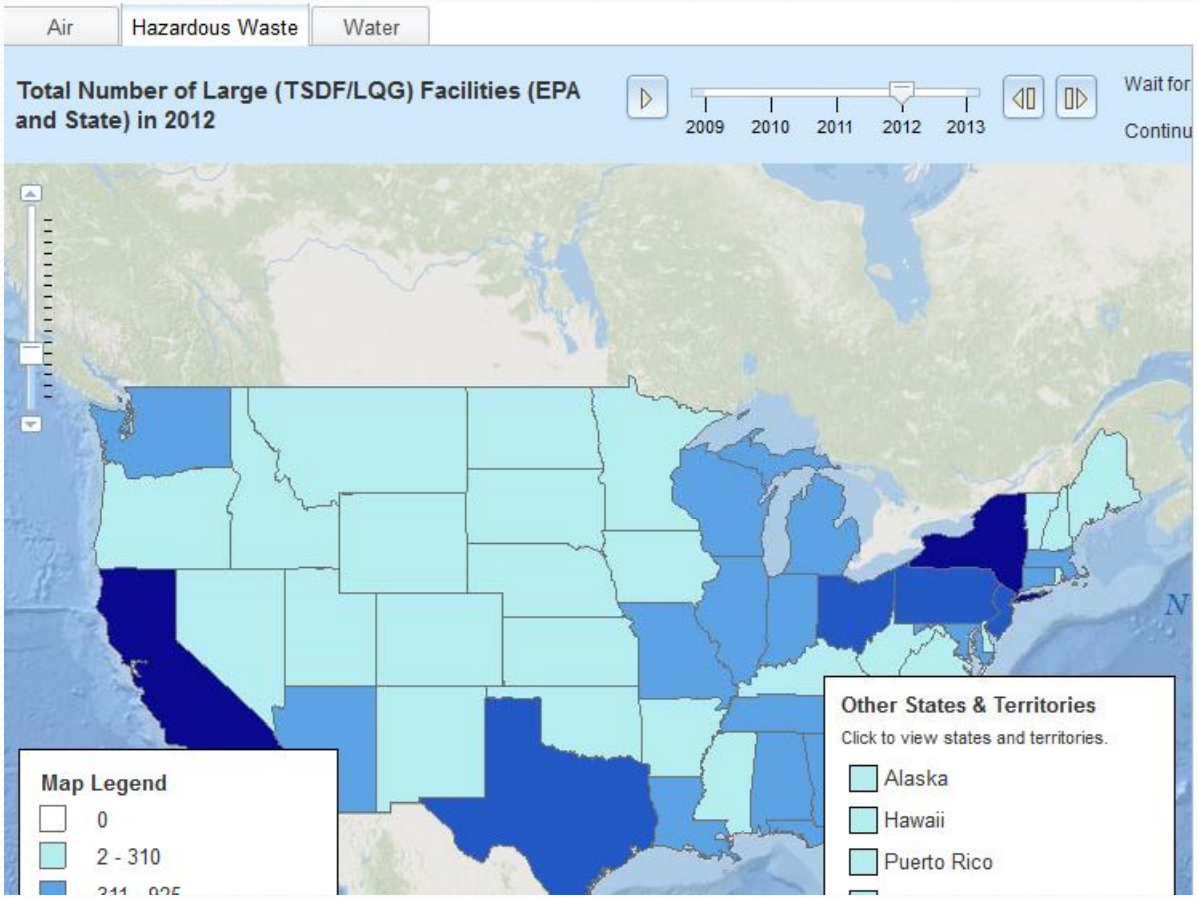
More Notes

- On the new ECHO Search page, it lists "Active/Operating" under Facility Characteristics. Active is for RCRA sites. Operating is for air, not RCRA TSD, sites.
- A longer history is needed to reduce FOIA requests, i.e. > 3 years.
- CERCLA EPA ID numbers should be added to ECHO, since they look just like RCRA EPA ID numbers[1]

Data performance analysis

Your state's RCRA data is presented at:

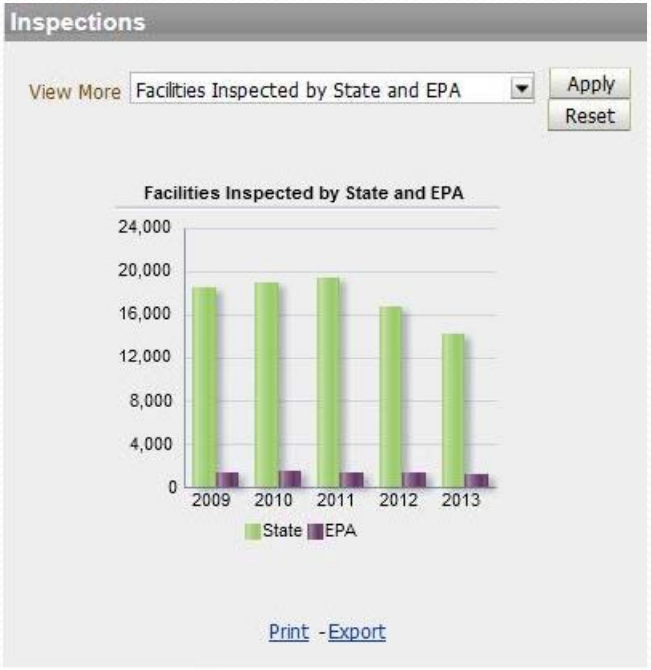
State Comparative Maps, under Create Maps



Analyze Trends - Dashboards

Your state's RCRA data is presented at:

HW Activity and Performance Dashboards, under Analyze Trends, State Dashboards



State Review Framework (at ECHO Gov)

- Under Oversight
- RCRA SRF metric 8a, SNC id rate, is miscalculated
- Other file metrics aren't in web site searches, e.g. 12b Penalty Collection is file based, not data in RCRAInfo
- Metrics query search
- Data Verification search
- Use now requires a password (State users can use any EPA Portal ID they already have, or register for a new one at ECHO.)
- ECHO Gov/Portal ID passwords expire every 90 days.

What RCRA data for your state is available to the public at ECHO?

- CME inspection, violation and enforcement information (current status & 5 yr history)
- SRF final report Findings and Recommendations*
- Significant Non-compliers (SNCs)
- LQGs
- Operating TSDs? (Full Enforcement at Envirofacts)
- Watch List, only public version Sep 2011 to Aug 2013

From Michael Barrette's "How RCRAInfo Data Is Used by OECA" August 2, 2005

Impact of Public Access

- In the RCRA program, waste handlers, particularly TSDs are very attuned to what ECHO says about their facilities.
  - Some handlers won't ship waste to TSDs that are having compliance problems.
  - Insurance companies use ECHO to determine risks.
  - Investors examine ECHO to perform "social screenings"
  - Potential land purchasers use RCRAInfo data to perform "due diligence"
  - Facilities with compliance problems have come forward to settle enforcement actions more quickly to "clear up" their ECHO record. They ask "How can I get my facility out of SNC?"
- EPA believes that ECHO is having a positive impact on overall compliance with RCRA.
- FOIA requests significantly drop because ECHO answers key questions.

Watch List update

- The Watch List is a tracking mechanism EPA uses to monitor states timely enforcement of SNCs.
- It is currently unavailable in ECHO Gov and it is temporarily suspended. Per the recent EPA Inspector General report, "EPA Should Assess the Utility of the Watch List as a Management Tool" (http://www.epa.gov/oig/reports/2013/20130930-13-P-0435.pdf), EPA is reviewing the utility of the Watch List before modernizing or rebuilding it.

Watch List notes

- The public Watch List at old ECHO did not display responsible agency, which is needed to refer inquiries to the correct agency, EPA or state.
- The old OTIS WL used location state, but should use activity location state for this list to be used by states. That way the agency entering/responsible for out-of-state data will be held accountable.

Tracking Work Plan Commitments

- Three new HQ-owned Commitment Types have been added to RCRAInfo:
  - Alternative Universe for LQG Inspection
  - LQG Flexibility Facility Inspection
  - TSDF Flexibility Facility Inspection
- For commitment data entry procedures, see Commitment Maintenance, and Link Commitments (chapters 22, and 6) in the LearningZen CM&E Data Entry - Part 1 course.
- Step 1 is adding the number of commitments an agency has for a year, and step 2 is linking actual evaluations to the commitment.
